THE
HOUSEKEEPER's,
AND
CLERK's ASSISTANT.

Being TABLES carefully calculated for paying
WAGES, SALARIES, ANNUITIES, and IN-
TEREST, from One Shilling to Ten Thousand
Pounds per Annum; after an entire, new, and
more exact Method than any hitherto pub-
lished; and so easy as to be understood by the
meanest CAPACITY, being useful in all FA-
MILIES, OFFICES, &c.

By J. CLARKE,

Late SUPERVISOR of the EXCISE.

LONDON,

TO THE

R E A D E R.

THE common method of paying wages, &c. by the tables found in book-almanacks, pocket-books, &c. being very erroneous, as they are calculated by the day, week, and month, without confidering that fome months contain more days than others, having led many perfons into miftakes; and as there is no book in print properly conftructed for the above purpofe, I am induced to offer the following fheets to the publick, which from the ufefulnefs thereof, I prefume will need very little apology.

Note—Thefe tables are calculated to the ten thoufandth part of a farthing; in tranfcribing which, (to prevent perplexities) all above 5000 parts are reckoned a farthing, and all below are rejected, which will account for the feeming irregular progreffions in the farthings.

A 2   The

The ufe of the following Tables.

You have only to tell the weeks and odd days in the almanack, or have recourfe to the firft table, and look in the tables under the refpective wages, &c. for a year, and you firft find what is due for the weeks, and then for the odd days; which you may add together by infpection only, if the wages do not exceed 10 *l. per annum.*

But if the wages, &c. come to odd fhillings, you muft refer to the tables for fhillings, as in the following inftance.

What does 19 weeks and 4 days come to at 8 *l.* 15 *s.* 0 *d. per annum ?*

		£.	s.	d.
at 8 *l.* 0 *s.* 0 *d. per ann.* 19 weeks		2	18	3½
4 days		0	1	9
at 15 *s. per ann.* ——— 19 weeks		0	5	5½
4 days		0	0	2
		3	5	8

Or it will be found by infpection, that

	£	s	d
at 8 *l.* 0 *s.* 0 *d. per ann.* 19 weeks and 4 days	3	0	0½
at 15 *s. per ann.* 19 weeks and 4 days	0	5	7½
Due for 19 weeks and 4 days	3	5	8

If

If you would calculate intereſt, the fol-
lowing ſpecimen will be a full inſtruction.
Suppoſe you have 300*l.* at four and half
per cent. ; that is 13*l.* 10*s.* 0*d. per annum,*
and would know what the intereſt is for 29
weeks and 6 days.

	£.	s.	d.
At 13*l. per ann.* 29 weeks is	7	4	$7\frac{1}{4}$
6 days ——	0	4	$3\frac{1}{4}$
at 10*s. per ann.* 29 weeks and ⎱ 6 days is - - ⎰	0	5	$8\frac{3}{4}$
	7	14	$7\frac{1}{4}$

A TABLE

A TABLE, shewing the Number of Weeks and Days from any Day in one Month, to the same Day in another.

The USE of the above TABLE.

Suppoſe you have a Salary, Annuity, or Wages to pay from April 15 to December 15; look for April in the Left-hand Column, and againſt December in the Top you will find 34 Weeks and 6 Days. But as theſe Tables can ſerve only for equal Days of the Month; if you are to pay from April 15 to December 27, add 1 Week and 5 Days, which makes 36 Weeks and 4 Days; for which the fol-lowing Tables will give you the Sum required.

to December 27, add 1 Week and 5 Days, which makes yo...
lowing Tables will give you the Sum required.
